

# AIR independence

**MORE TIME.  
MORE COMFORT.  
MORE INDEPENDENCE.**

## **WITH US YOU CAN REGAIN YOUR INDEPENDENCE**

We liberate you from inflexible flight schedules, time-consuming waits at check-in or at the baggage counter and cramped, uncomfortable planes. And you remain completely in control once we're in the air. We treat you to a degree of luxury that leaves nothing to be desired. Experience the very best in independent flying - welcome on board your Air Independence flight.

The founding vision of Air Independence was to create an exclusive airline for discerning passengers which set new standards in the key disciplines of flexibility, comfort and safety. As satisfied passengers frequently confirm, this goal has been achieved. But, for us, that is no reason to not strive to be a little bit better every day.

### **FLEXIBILITY**

Book today - fly today!

No matter if it is for a two hour business trip or a trip around the world - to the most distant destinations - Air Independence will tailor a flexible package that fits into your needs.

Forget inflexible flight schedules and fixed routes - we give you back your freedom. With Air Independence you choose yourself when you fly, which route you take and which airport you land. There are no changes and no queues at check-in or at the baggage counter. Enjoy the on-board comforts, be glad of the time you've saved and arrive relaxed at your destination. And if you would like to be picked up from the airfield by a limousine, we would also be pleased to arrange this for you.

### **COMFORT**

We would like to invite you to experience a feeling of generous space in which you will be able to unwind while you travel. At last, you will have enough space for your laptop and your documents. At last, you can conduct business discussions or conversations on board in private. Or you can get some rest on board in a comfortable bed. This alone is comfort that customers of scheduled airlines can only dream of. But with Air Independence the dream goes further. Our fully trained and highly skilled team will look after your every need, offering catering, for instance, which is tailored to your personal preferences. Our attentive service team knows that every detail counts. Every last detail . . .

### **SAFETY**

We are continually working to provide you with ever improved safety. This commitment has made Air Independence one of Europe's most modern airlines. Our fleet of business jets make use of cutting-edge technology and highly sophisticated safety features. Examples of this are the Traffic Collision Avoidance System (TCAS II) and the Ground Proximity Warning System (GPWS). Our pilots are trained to the highest possible level and receive continue recurrent training. As an airline which is licensed by the Austro Control (License No. A124), Air Independence is subject to the strictest European safety regulations (EU-OPS).
